## Research Ethics Committee

Research ethics provides guidelines for the responsible conduct of research. In addition, it educates and monitors research scholars conducting research to ensure a high ethical standard. The following is a general summary of some ethical principles: Honesty:

Research ethics committee shall ensure honestly report data, results, methods and procedures, and publication status. Do not fabricate, falsify, or misrepresent data.

### **Objectivity:**

Strive to avoid bias in experimental design, data analysis, data interpretation, peer review, personnel decisions, grant writing, expert testimony, and other aspects of research.

### **Integrity:**

Keep your promises and agreements; act with sincerity; strive for consistency of thought and action.

### **Carefulness:**

Avoid careless errors and negligence; carefully and critically examine your own work and the work of your peers. Keep good records of research activities.

### **Openness:**

Share data, results, ideas, tools, resources. Be open to criticism and new ideas.

### **Respect for Intellectual Property:**

Honor patents, copyrights, and other forms of intellectual property. Do not use unpublished data, methods, or results without permission. Give credit where credit is due. Never plagiarize.

### **Confidentiality:**

Protect confidential communications, such as papers or grants submitted for publication, personnel records, trade or military secrets, and patient records.

### **Responsible Publication:**

Publish in order to advance research and scholarship, not to advance just your own career. Avoid wasteful and duplicative publication.

### **Responsible Mentoring:**

Help to educate, mentor, and advise students. Promote their welfare and allow them to make their own decisions.

### **Respect for Colleagues:**

Respect your colleagues and treat them fairly.

### **Social Responsibility:**

Strive to promote social good and prevent or mitigate social harms through research, public education, and advocacy.

#### Non-Discrimination:

Avoid discrimination against colleagues or students on the basis of sex, race, ethnicity, or other factors that are not related to their scientific competence and integrity.

#### Competence:

Maintain and improve your own professional competence and expertise through lifelong education and learning; take steps to promote competence in science as a whole.

#### Legality:

Know and obey relevant laws and institutional and governmental policies.

#### Animal Care:

Show proper respect and care for animals when using them in research. Do not conduct unnecessary or poorly designed animal experiments.

#### Human Subjects Protection:

When conducting research on human subjects, minimize harms and risks and maximize benefits, respect human dignity, privacy, and autonomy.
